PROFESSIONAL SUMMARY

Full-stack software developer with 1 year of hands-on IT experience at Airports Authority of India, alongside project experience in React.js, Node.js, and Python for AI/ML-driven web applications and data analytics. Delivered projects achieving 85%+ model accuracy, 90% predictive precision, and 40% reduction in manual processing time. Proficient in REST API integration, database management, cloud serverless applications (AWS), and the full SDLC. Seeking a software engineering or data engineering role at a product-based company.

WORK EXPERIENCE

IT Apprentice

Airports Authority of India | 21 July 2025 – 20 July 2026 (1 Year)

- Worked as an IT Apprentice supporting internal IT systems and applications using Python, Java, and database technologies.
- Developed and maintained scripts and small utilities in Python and Java to automate routine IT support and data-handling tasks.
- Managed and queried relational databases (MySQL) to maintain accurate operational and reporting data for IT infrastructure.
- Assisted the IT team with troubleshooting, system maintenance, and documentation, improving day-to-day operational efficiency.

Data Analytics Intern

IBM SkillBuild / CSRBOX | 2023

- Developed an Employee Salary Management System analyzing 5 years of historical data to optimize organizational salary structures and budget allocation.
- Applied Machine Learning models (Python, scikit-learn) to forecast salary increments, achieving 90% predictive accuracy on performance-based trends.
- Automated cleaning and processing of large-scale employee datasets using Python and MySQL, reducing manual data entry time by 40%.
- Designed interactive dashboards providing financial insights to stakeholders, reducing budget variances by 15% through data-driven decision support.

PROJECTS

Personality Prediction System

Academic Project | 2024

- Built a web-based AI application using Machine Learning (K-Means clustering) and Streamlit, processing 500+ user inputs to predict personality traits based on the OCEAN model with 85% classification accuracy.
- Applied normalization and feature extraction techniques to a dataset of 10,000+ records, reducing data noise by 20% for improved model reliability.
- Fine-tuned pre-trained models to reduce inference time to under 2 seconds per query, maintaining a modular architecture for future scalability.

Real Estate Web Application

Academic Project | 2023

- Integrated JSON-based REST APIs to dynamically fetch and display 100+ real-time property listings with sub-second latency.
- Implemented advanced search and filtering (location, price, amenities) with database query response time under 300ms.
- Incorporated AI-based recommendation logic to suggest properties based on browsing history, increasing simulated user engagement by 25%.
- Applied front-end optimization and cross-browser testing using React.js, improving page load speeds by 30% across mobile and desktop.

SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, Java, SQL (MySQL), HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Streamlit, Pandas, NumPy, scikit-learn

Cloud & DevOps: AWS Cloud, Git, GitHub, Cloud Serverless Applications, CI/CD

AI & Data Science: Machine Learning, Data Analytics, Data Visualization, Predictive

Modeling, K-Means Clustering

Core Concepts: SDLC, REST API Integration, JSON, Object-Oriented Programming (OOP), Agile/Scrum

PROFESSIONAL DEVELOPMENT

Advanced Java Programming

Accenture & Anudip Foundation | 182 hours | Grade A | Sep 2025 – Jan 2026

- Completed 182 hours of intensive training on Advanced Java Programming at Anudip Foundation Skill and Career Development Center, Thane, Maharashtra.
- Covered core and advanced Java concepts including OOP, multithreading, collections, JDBC, servlets, and web application development.
- Awarded Certificate of Merit with Grade A by Accenture & Anudip Foundation (Student Reg. No.: MHTHA/AF04986581).

EDUCATION

Bachelor of Engineering — Information Technology

A.C. Patil College of Engineering, Mumbai University | CGPA: 7.0 | 2024

HSC (12th Standard)

Moolji Jetha College, Jalgaon — Maharashtra State Board | 2020

CERTIFICATIONS

- IBM SkillBuild / CSRBOX — Data Analytics Internship Certificate
- Python Training — Besant Technologies
- Advanced Java Programming — Accenture & Anudip Foundation (182 hours, Grade A) | Sep 2025 – Jan 2026
